Budget Options:

Budget Cap: Your yearly consumption would be divided into 10 monthly payments from July through April. You would receive oil at the cash price, not to exceed the capped price (currently $3.899) which is determined on the date we receive your contract. You would purchase down-side protection at a cost of .30/gallon, payable with your signed contract, and there would then be no limit as to how low your price could go.

Budget Collar: Your yearly consumption would be divided into 10 monthly payments from July through April. : You would receive oil at the cash price within the price collar. The collar at this time is $3.499 to $3.999 and is subject to change at any time. Your collar is determined on the date we receive your contract.

Budgets must be automatic delivery and all payments are due by the 10th of each month. Budgets must remain current to receive the benefits of this plan.

Pre-Paid Options:

Fixed price pre-paid: You decide how many gallons to purchase at a fixed price. The price is determined on the date we receive your contract and is payable in full with your signed contract.

Pre-paid with down-side protection: You decide how many gallons to purchase. The price is determined on the date we receive your signed contract. For an additional .30/gallon you would purchase an option which would allow you to receive oil deliveries at the cash price of the day.

Pre-paid accounts must be on automatic delivery and there is significant fine print to read.

Call 924-3388 or email awpeters@monad.net. We will gladly answer your questions, discuss the merits of each plan, send you a proposed contract, and help you plan accordingly for the next heating season.

Thanks,
Jeffrey S. Peters
